Rudger Gravestein

Self-employed Consultant, Architect, Developer (Magento EE/CE) at Triple-networks

rud5gmobile@gmail.com

Summary

Currently self-employed, so you might be able to hire me. Just send me a pm.   ---- in short: I love working with Chef, devops, CI, AWS, Virtual machines & containers, Magento Enterprise & Zend Framework. about myself, i am an experienced software engineer developing Magento Enterprise and Community projects from start till deployment, have knowledge of Zend Framework, OOP design patterns, databases MySQL/SQL, used to work in a self-organizing, cross-functional team with good knowledge and use of SCM (Software configuration management) to track and understand changes. I am used to work with a software development life-cycle (DTAP), from design and implementation to unittesting and production deployment. Experience with working and administering *nix systems and setting or creating those through an automation framework like Chef. Achievements * Responsible Magento Enterprise project for multinational. * Setup multiple Magento projects as team lead. * Automated all deployment projects at the company. * Setup of revision control system (subversion) for all existing and new projects in a company, including basic build-scripts for deploying to multiple servers. * Setup of Trac/Jira/Fisheye for revision control management. * Upgraded existing PHP4 projects to new PHP5 server. * Grow on the Company website from 50 Unique Visitors per month to 20.000 Unique Visitors per month within 3 years. * Created complete backend for all data managing related operations in a media company, including ftp, upload, download, soap connection with partners and metadata library. Specialties: PHP5, MySQL, SVN, Server architecture, Scrum / Agile, xHTML, CSS.

3 people have recommended Rudger

"Already charmed by Rudger's attitude in our first interview, I knew he would be a great colleague to join the team. He showed a proactive and enthusiastic character combined with a high level of expertise and eagerness to keep on learning."

— **Sohrab Hosseini**, managed Rudger at Youwe / Drecomm

""

— **Petra Visbeen**, was Rudger's client

"Rudger is a talented programmer and a fun person to work with! With his excellent skills in PHP he's up for any job. He can singlehandedly complete challenging projects and often comes up with extremely creative solutions. I enjoyed working with him a lot! And besides all that, he's also a great DJ... ;)"

— **Joost Nauta**, managed Rudger at Direqt
